

NOTICE TO MARINERS 11 NOVEMBER 2009

Once again Fiji is into the Cyclone Season and we need to all be getting prepared for the eventuality of a Cyclone hitting our shores. As a reminder, if a Cyclone warning comes into force Port Denarau Marina management will monitor the situation and keep you all informed of the development. Should a cyclone be imminent ALL OPERATORS MUST REMOVE THEIR VESSELS FROM THE MARINA. Any operators who leave their vessels on the dock will be liable for all and any damage caused to Port Denarau Marina property – no exceptions.

Please check that your vessel is listed below and that the details of your cyclone hole are noted correctly. In this situation we must all work together to ensure that all life and property is preserved. Should there be any changes from last year please notify Port Denarau Marina immediately.

Thank you in advance for your cooperation.
